17/05/1907. Three bells to complete octave from Rev. E. Hartley. 5-0-15, 4-1-18; 4-0-23. Old clock bell 2-3-22, 2-3-13 net. Whitechapel Foundry day book 204/97.

Eight bells hung on plain bearings in a cast iron frame made at the Whitechapel Bell Foundry in 1907. The five heaviest bells were cast in 1854 and three added to complete the octave in 1907.
[Source of this text unknown]

Bells restored in 1991. The current weights are:

1	3-3-2	5	5-3-9
2	4-0-2	6	6-2-23
3	4-2-7	7	8-1-8
4	4-3-3	8	10-3-27

Letter from C J Pickford to R W M Clouston 14/11/1994.
